

## LOOK NO FURTHER, HARLEY STREET QUALITY HAS COME TO KINGSTON!

In 2000 when I came to London with my family, **Nadine Epp** was my first dentist. I was impressed by her charm and her expertise as a dentist. We were all very sad when Nadine decided to move into the private sector. Since then she has specialised in the area of beauty and opened up this stunning practice in Kingston. (Editor)

**AURA** is the centre for **Cosmetic Dental Excellence** and **Facial Aesthetics**. Dr. Nadine Epp has excelled in her field with expert certification in cosmetic procedures for both dental and anti-ageing treatments. **AURA** opened its doors in June 2008 and prides itself as a state of the art premises delivering outstanding customer service and treatment.

Many people want to improve their appearance. Simple anti-ageing treatments such as **wrinkle reduction, dermal fillers, lip enhancement**, and **chemical peels** are very popular. **Teeth whitening** and **invisible braces**, along with the more complex **smile makeover** can completely transform one's appearance.
